ANTI-MOB LAW.

As Passed at the Extra Session of the Legislature:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. If any two or more persons shall confederate or band themselves together for the purpose of intimidating, alarming, disturbing or injuring any person or persons charged with a public offense from any officer or other person having the lawful custody of any such person or persons, with the view of inflicting any kind of punishment on them, or with the view of preventing their lawful prosecution for any such offense, or to do any felonious act, they or either of them shall be guilty of a felony, and upon conviction shall be confined in the penitentiary not less than one nor more than five years.

Sec. 2. If any two or more persons shall confederate or band together and go forth for the purpose of molesting, injuring or destroying any property, real or personal, of another person, persons or corporation, whether the same be injured, molested or damaged or not, they shall be guilty of a felony, and upon conviction shall be confined in the penitentiary not less than one nor more than five years.

Sec. 3. If any injury shall result to the person or property of any person or persons, by reason of any unlawful acts denounced in the preceding section of this act, the person or persons engaged in participating, or any one of them, or any one aiding or abetting such unlawful act, shall be guilty of a felony, and upon conviction shall be confined in the State penitentiary not less than one nor more than fifteen years, unless death should result, in which case the penalty for such offense shall be as now prescribed by law. It shall be no mitigation of the offense for any one, upon his trial for a violation of this section, that he may have acted through heat and passion, or that he may have acted without malice, and the judge trying the case shall so instruct the jury in writing. The persons composing such mob or riotous assemblage shall be individually and collectively liable in damages to the owner or owners of property so damaged or destroyed, to be recovered by suit at law in any court having jurisdiction of the amount in controversy.

Sec. 4. Any officer or person having the custody of the person or persons charged with a public offense shall have the power, and it shall be his duty to summon to his aid as many of the able bodied male citizens of his county, between the ages of twenty one and fifty years, as may be necessary for the protection of any such person or persons in his custody, and every such person who shall fail or refuse to obey such summons or verbal notice of such officer shall be fined in any sum not less than \$100 nor more than \$500. Any officer having knowledge or reasonable grounds to believe that an effort will be made to rescue, injure or kill any person or persons in his custody charged with a public offense shall immediately provide such means as may be necessary to prevent any such unlawful act or acts; and any officer who may be in charge of any jail in this commonwealth, in which is incarcerated any such person or persons charged with a public offense, when he has reasonable grounds to believe that said jail will be attacked by a mob of persons confederated or banded together for the purpose of inflicting violence upon any inmate of said jail, may in his discretion arm said threatened inmates, with a view to their own protection.

Sec. 5. That upon information being lodged with any county judge, or circuit judge in this commonwealth, by any reliable or credible person or persons, stating under oath that he has information or knowledge that causes him to believe that two or more persons have banded or confederated

together, or are about to do so, for the purpose of injuring or destroying any property, real or personal, tollgate, tollgate house, bridge or other property of any person, turnpike or railroad company or other corporations in the county, or for the purpose of intimidating or preventing the keeper of any tollgate or bridge from collecting toll, and shall describe the said property or person threatened, it shall be the duty of said county judge or circuit judge to at once order the sheriff or any constable of the county to summon a posse of not less than two or more than ten discreet and able bodied men, between twenty one and fifty years of age, for each piece of property threatened with injury or destruction, to be placed at or in such property, armed with guns and ammunition, until the judge is satisfied the cause no longer exists, not to exceed thirty days at any one time; provided, however, at the end of thirty days if the court is satisfied from information from a reliable source, that it said guard or guards are removed the property will be injured or destroyed, he may continue the guards for a period of thirty days longer, and so on, thirty days at a time, until he is satisfied that there is no further necessity therefor.

Sec. 6. If the county judge, circuit judge, sheriff, or any other peace officer shall refuse or fail to discharge any of the duties imposed upon him by the provisions of this act, or shall be guilty of a dereliction of duty as said officer, in the premises, he shall upon conviction be fined not less than \$100 nor more than \$500, and shall forfeit his office as a penalty, in addition to the payment of said fine.

Sec. 7. That the officer, for summoning the guards, shall be paid a fee of 50 cents for summoning the said guards, and each guard shall be paid \$2 or at the rate for each day he is on duty, to be paid upon the warrant of the county judge, out of the county treasury and levy of that year. If a person serve over ten hours in any one day for such excess of service he shall be paid extra in proportion to the time of such extra service. Any guard summoned by the officer who fails or refuses to act without good cause made known at the time shall be liable to a fine of not less than \$5, nor more than \$15 for each day said guard shall be in default.

Sec. 8. For the purpose of more effectually enforcing the provisions of this act, the governor is hereby authorized to offer a reward for the apprehension and conviction of any offender of this law, in any sum not exceeding \$500, and he shall be authorized to employ detectives, in his discretion, for the ferreting out and apprehension and conviction of any such offender, not exceeding two at any one time, provided the cost thereof shall not exceed \$3,000 in any one year. The judge of the county court of any county in which this law is violated shall have power to offer a reward not exceeding \$200, or supplement the governor's reward for the arrest and conviction of any person violating this act. The rewards offered by the governor shall be paid out of the treasury of this state, those offered by the county judge shall be paid by the county.

Sec. 9. If any person shall send, circulate, exhibit or put up any threatening notice or letter, signed with such person's own or another name or anonymously, he shall upon conviction thereof be fined not less than \$100 nor more than \$500, and imprisoned in the county jail not less than three nor more than twelve months.

Sec. 10. In any prosecution under this act it shall be no exemption for a witness that his testimony may incriminate himself; but no such testimony given by the witness shall be used against him in any prosecution except for perjury, and he shall be discharged from all liability for any violation of the act so necessarily disclosed in his testimony.

Sec. 11. As mobs and riotous assemblages of persons in certain counties of this commonwealth, have for several months past been engaged, and are now engaged, in injuring and destroying real and personal property and the good names of this Commonwealth demands that such unlawful conduct shall be stopped as soon as possible, it is hereby declared that an emergency exists, and this act shall take effect when approved by the governor.

WASHINGTON NEWS.

Reeds Rules the Only Barrier to Recognition of Cuba.

Deboe and Franks Call Upon the President, and the Latter Confident of Winning.

Washington, D. C. May 25.—Public interest is centered in the House of Representatives and the excitement will continue until Reed permits consideration of the Morgan bill, which he is understood to have promised President McKinley shall not be considered, no matter how determined the effort, until its adoption will not embarrass the Administration in negotiations now pending.

REED'S POWER.
 The Speaker's power is thought to be the only hope of escape in a situation particularly desperate from the Administration and Spanish point of view, and in many quarters it is believed to mark a crisis in Reed's career, as he is compelled to decide for himself whether the desire of a great majority of the American people can be suppressed by a mere ruling from the chair, and how long this sort of thing will be competently accepted before a revolt of enthusiasts puts an end to the present code of rules.

Rumors are current today that a Republican caucus will soon be called to take action on the Cuban belligerency resolution of Senator Morgan. The White House is alarmed at this Congressional phase of the situation. Twenty five Republican Congressmen can demand a caucus, and Chairman Grosvenor of Ohio will be compelled to call it.

The caucus call will easily receive twenty five signatures, as soon as it is circulated. The result of a caucus is a foregone conclusion, for belligerency would be endorsed by a four to one vote.

The Senate, by a vote of 41 to 14, passed the following resolution: "Resolved, etc., That a condition of public war exists between the Government of Spain and the Government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America shall maintain a strict neutrality between the contending parties, according to each and all the rights of belligerents in the ports and territory of the United States."

An analysis of the vote shows that the affirmative was cast by eighteen Republicans, nineteen Democrats and four Populists, and the negative by twelve Republicans and two Democrats.

During the past ten days Senator Deboe's mail has been burdened with applications from his friends and supporters, asking him to endorse them for deputy collectors, storekeepers and gaugers in the internal revenue service in Kentucky. Speaking on the subject tonight Senator Deboe said that he was sorry he could not comply with the requests for his endorsement for the reason that it would do no good. All these positions, he said, were in the classified service, and appointments thereto could only be made through the medium of competitive examination. "If I could have my way," remarked the Senator, "I'd give all my friends an appointment. If I get a whack at civil service law my vote will be registered against that un-American and undemocratic measure."

Senator Deboe and Mr. E. T. Franks called on the President last night and remained with him an hour or more. Mr. Franks is more sure than ever that he will be the Collector of the Owensboro district, and Senator Deboe says that no word to the effect that his slate would be broken has ever come to him from the President. In fact, the opposite has been intimated.

Best Remedy for Rheumatism.

From the Fairhaven, N. Y. Register. James Rowland of this place states that for 25 years his wife has been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had heard of Chamberlain's Pain Balm, and instead of going for a physician he went to a store and secured a bottle of it. The wife did not approve of her husband's purchase at first but nevertheless applied the Balm thoroughly and in an hour's time she was able to go to sleep. She now applies it whenever she feels an ache or pain, and finds that it always gives relief. She says no medicine she ever used did her as much good. (The 25 and 50 cent sizes for sale at Orme's.)

THE PENITENTIARIES.

The Legislative Committee Scores Warden Happy.

Frankfort, Ky., May 21.—The committee appointed by the legislature to investigate the management of the Eddyville Branch Prison made its report before the adjournment of the legislature. Here are some extracts from that report:

That the Warden, J. H. Happy, who ought to be in charge of said prison, has been guilty of inexcusable neglect in failing to remain at the prison and overlook, superintend and direct in person the management of the institution. The testimony satisfactorily shows that, during the months of March and April next before this investigation, he was away from said penitentiary more than half of his time, and in fact was only in or about the prison twenty four days the whole of March and April, 1897, and knew little or nothing of what transpired during his protracted and continued absence. The testimony shows that he was at divers times and on many occasions away from the institution prior to March and April, 1897. Soon after he assumed control of the prison, on April 29, 1896, there was a disastrous fire in the penitentiary that consumed the workshops and occasioned great loss to the State; this fire occurred on the night of May 14, 1896, about 7:30 o'clock, when the warden as usual was absent, not in Eddyville but in the city of Mayfield, Ky., as the testimony conduces to show, in a negro church, making a speech to an audience on the subject of prohibition the same hour the property of Kentucky was destroyed and reduced to ashes by flame.

From the testimony heard by the committee, as well as the inside and outside surroundings and appearance of the prison, we are deeply impressed with the hurtful neglect and incapacity manifested in the physical improvement of the institution.

From the testimony heard there seems to have been and doubtless is a characteristic looseness threatening through the entire business of the institution. Convicts have been permitted to run at large in the city of Eddyville and community by the present chief official of the prison to the annoyance and disgust of the citizens.

Referring to the discharge of a guard upon the charge of drunkenness; the report says:

We feel sure he was not discharged for drunkenness; if he had been, T. T. Hanberry confessed he was drunk, and there was no testimony tending to show that Goode was drunk, yet Goode was discharged and the other retained.

We feel that duty impels us to no longer the manifest despotism and relentless spite that characterizes the administration of warden Happy, touching those who have moral courage and integrity sufficient to perform their official duty and thereby place themselves in antagonism to him.

The committee, for the reasons stated, suggests and recommends that said prison be continued and be perpetuated as a penitentiary, and further recommends that an adequate sum of money be appropriated by the General Assembly of Kentucky for the rebuilding of workshops in the said prison.

This report is signed by four members of the committee—Messrs. Sims, Elmore, White and Nance. Messrs. Winfrey and Stege make a minority report upholding the Warden.

The committee that investigated the Frankfort penitentiary also found many things that strongly indicate mismanagement.

Warden Hancock's annual report that the chair factory had paid out for material \$7,000 more than the total income, which indicated a heavy loss to the State, for besides the \$7,000 loss on material, there was the labor to be considered. In plain words the State had bought material for Contractor Martin, had furnished the labor and made the material into chairs, which were sold to Martin for \$7,000 less than the State paid for the material alone.

CAPTURED SOME MORE.

George Gibbs is Again Reported in the Hands of the Officers.

Saturday's Paducah News has this item:

Detective J. K. Greer received a telegram from detective G. A. Newton, of Texas, early this morning, stating that a man answering the description of George Gibbs, the assassin of Miss Shelly, near Salem, in Livingston county, several years ago had been captured.

There is a large reward for Gibbs' capture, and Mr. Greer has been untiring in his efforts to apprehend him. Gibbs stands indicted on the charge of rape in the Livingston circuit court, and should the present man prove to be the accused he will, by order of the court, be incarcerated in the Paducah jail for safe keeping. Detective Greer, in conversation with a News reporter today, declined to tell the name of the town or state where the man supposed to be Gibbs was captured.

We live in a country in which the principal scourge is stomach trouble. It is more widespread than any other disease, and very nearly more dangerous.

One thing that makes it so dangerous is that it is so little understood. If it were better understood it would be more feared, more easily cured, less universal than it is now.

So those who wish to be cured take Shaker Digestive Cordial, because it goes to the root of the trouble as no other medicine does. The pure, harmless, curative herbs and plants, of which it is composed, are what render it so certain and at the same time a gentle cure. It helps and strengthens the stomach, and purifies and tones up the system.

Sold by druggists, price 10 cents to \$1 per bottle.

ROYAL BAKING POWDER
 Absolutely Pure
 Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap baking powder.

Eighteen years ago today the first issue of the CRITTENDEN PRESS was printed, and regularly for these eighteen years it has been going into the homes of the people. Just how well it has succeeded as a county paper is a question that we are willing for the public to answer.

The eighteen years of work has brought us neither wealth nor fame, but when the substantial progress of the people of the county is noted and due credit is given all the influence that have contributed to the onward and upward march, the work of this paper will not be set at naught.

The people have shown their appreciation of the Press by a very liberal patronage, and as it has been going in many instances to the same homes for eighteen years, we feel that the people have been getting value received for the dollars paid us, and this is a source of no little pleasure to every business man. Nevertheless, we are indeed grateful to the people for their support of the paper, and the familiar names that adorn our subscription books constitute a roll of honor in the Press office.

The circulation of the Press is now 1600, but a great many of our subscribers, feeling the pressure of the hard times, have not paid up, and we take this occasion to say to them that we stand sorely in need of the money. The amount to each is small, but when added it represents more than a year's income to us, and this taken out of a business that yields only a modest living, is a serious impediment. If you can spare the money, do not overlook this matter. The dollar you may owe, added to the dollars which others owe, make the sum total of that which we need just now.

Toll gates and tobacco beds are still the objects of the raiders' wrath in central Kentucky.

J. H. Happy is out in a lengthy card roasting the legislative committee that roasted him.

It is said that the President will not appoint Hunter nor Franks to office until those indictments are settled.

Senator Deboe is somewhat of a farmer. He is not permitting any grass to grow on the "turning row" that leads to the White House.

If the old saw—A bad beginning—a good ending—will do to rely upon, the State will be in a blaze of glory at the ending of the Bradley reign.

The Louisville Post cries out free silver is dead, and then devotes the remainder of its editorial columns to fighting the cause. Why fight the dead?

The convicts could be worked on the public roads without proving disastrous to free labor. Free labor would extend a vote of thanks to this kind of competition.

Sincerity in politics seems to be a lost art. Platform makers are as solemn as Jeremiah, but the solemnity gives way to a Pickwickian humor after the ballots are counted.

The National Sound Money League met in Chicago last week for the purpose of perfecting its organization, and shaping its august self to "defend the national credit and the gold standard."

An increase in the assessed value of taxable property by the State Board of Equalization, and an increase in the tax rate by the Legislature, is not a good remedy for the financial afflictions now upon the people.

The big senior Senator from Kentucky, Lindsey, has found one plank in the Chicago platform upon which he can stand. His speech in the Senate for the recognition of Cuba as a belligerent shows that he is in sympathy with the Cuban resolution of the platform.

It is announced that Mr. Whitney will return to the Democratic party. He has less objections to the free silver of Democracy than to the tariff doctrine of the Republicans. He evidently sees no middle ground—no work for a mugwump party. The dilemma has only two horns, and in the adjustment of party lines every man to make himself felt must take either the one or the other.

Ex-Senator Ingalls is not one of those that sees the sun of prosperity rising. He was in Washington recently and in an interview published in the Star he says:

"Since the election in November I have been in all parts of the country from San Francisco to Boston, from Montreal to Atlanta, and it is the concurrent testimony that times have never been harder nor money scarcer than now."

By raising the assessment in this State \$20,000,000, the State Board of Equalization placed the total value of taxable property in the State within \$20,000,000 of last year's assessment. The population of the State in 1890 was 1,858,635; it is now possibly two million. The shrinkage in the value of property, according to these figures, is about \$10 per capita. The property assessed in the fall of 1895 remained in the State; the acres were as broad and as fertile in 1896 as in '95; the personal property did not take wings and fly away, it is still here. The people had toiled as industriously and as hard as ever. But when it comes to measuring up the wealth of every man, woman and child in the State, each would be \$10 poorer. The ability of each for paying debts and taxes has been decreased just that much. This is a condition that the blindest partisan spirit can readily comprehend. All have struggled to advance up the mountain side, and at the end of the year as we turn to retrospect the country over which we have passed, we find that the territory traversed is in front and not in the rear, and we look forward to see the spot we occupied.

Measured by the appreciating dollar, the property that supplies the natural wants of man just as satisfactorily as ever, is less valuable, and consequently more of it is required with which to purchase a dollar.

Viewing this situation we declare that property has declined. Why not say that the standard by which we measure values has been lengthened? Why not say that the dollar has increased in value.

When "commerce" demands intervention in Cuban matters the powers that be pluck up their ears; when humanity demanded a similar step, the men who spoke for her were promptly called blatherskites. The flowing of blood is nothing, so long as it does not break over the levee and inundate "commerce."

A London letter says: The anniversary of the completion of the 60th year of the reign of Queen Victoria, will be marked by the liberation of all the slaves in the British possessions in Africa.

Statistics show that there are 50,000,000 slaves in Africa. In the British possessions there are at least 20,000,000 slaves, or more than one quarter of the total population of the United States. It has been estimated that the keeping alive of the slave trade costs the lives of 500,000 natives annually.

President McKinley's Bimetallist Commission has arrived in Paris. After spending a month in Paris they will go to London. With \$100,000 of Uncle Sam's money subject to their draft for expenses and salary, the commissioners can have a pleasant time, hobnobbing with the money nabobs of Europe. According to the press reports they are not meeting with a great amount of encouragement, but who expected the men who have been shaping financial legislation in this country towards the gold standard to encourage a commission of bimetallists.

The Jessamine county Free Thinkers have petitioned the Governor not to permit the payment of the \$300 appropriated by the Legislature to pay ministers of the Gospel for prayers during the late extra session; and they further threaten to carry the matter to the courts, if necessary to prevent the payment. Of course the value of the prayers can not be estimated in dollars, but who would have risked that Legislature without prayers?

The newspapers say that Senator Deboe went to sleep in the United States Senate the other day. The change from the pugilistic atmosphere of the Kentucky Senate to the solemn stillness of the House of Lords is likely to put any true Kentuckian to sleep. We don't blame the Senator for courting Morpheus when Mark Hanna is the other alternative.

The colored youth who was appointed to the government school at Annapolis, failed to pass the examination. That examination may have been all right, but we'll bet dollars to doughnuts there was another "nigger" in that examination whoopie, if the thing was looked into.

About fifty Democrats, who are keeping their heads in the public crib in the Interior Department, were reduced in rank and in pay a few days ago. It is said that there are more ways of killing a dog than drowning him, and it seems we have here a practical illustration of the old saw.

Dr. Stewart, physician of the Frankfort penitentiary, has gone to Illinois and Indiana to study penitentiology. Recent news from Frankfort indicates that he will have to begin in the freshman class.

The pie hunter appear to be the outcasts of Senator Deboe's spouting reputation.

Free silver is as ever a delusion and it is a delusion which six months of good times will utterly dissipate.—Louisville Post.

But where are you going to get the six months of good times? That's the article everybody is pining for. The market is extremely short on this item, and now if the Post believes in its remedy, and has the medicine, please forward us by express six dozen gross of "six months good times," and we will give it a fair trial. Since the reprint of the "make-shift" Sherman law without the substitution of the genuine article, there has been several "six months times," but each succeeding one has been a little more destitute of the "good" than its predecessor. If the Post has a supply of good ones on hand, let us have them. If you can not send the full size bottles, just let us have them in whatever size is most convenient.

Mexico has 100 cotton mills and give new ones on the way from the United States. The Hercules cotton mills, three in number, have just resumed operations at Queretaro after having shut down for several months. They employ 3,000 persons. This industry feature begins to look favorable for the future of the of a hitherto lachrymose and unprogressive people.—Louisville Times.

Here is information for us from goldbug headquarters. Mexico—free silver Mexico—extending her industries. Comment seems to be unnecessary.

Senator Deboe parted company with Hanna on the first round. The Kentuckyian voted for the Morgan Cuban resolution, while boss Hanna voted against it. The Administration was also against the resolution, but notwithstanding the newspapers say the new Senator slumbered and slept while the speeches were being made on the question, he awoke in time to vote on the right side.

The Legislature passed the bill transferring Marion from a sixth to a fifth class post office, if Ollie James' voice was voluminous enough to move the town up a button hole, Dr. Deboe's prominence ought to scout the post office up to the presidential class.

The latest information about our new Senator is that he is an A. P. A.

The ten cents increase of State taxes takes effect on the pocket books this year.

Gov Bradley did not think the second session of the legislature worthy a military burial.

GETTING READY.

Crittenden Springs Will Be Ready For Guests June 14. Great Preparations Being Made.

The State Pharmaceutical Association to Meet There June 15th.

The Messrs. Thurman with a force of hands are putting in every available moment getting the big hotel at Crittenden Spring ready for the reception of guests. The house has been repainted and is being cleaned and furnished up from garret to cellar. New furniture and new carpets are being put in a number of the rooms, and a general overhauling and rearranging has been made. The house will be ready for the reception and entertainment of guests by June 10. From 100 to 150 guests are expected at the meeting of the Pharmaceutical Association June 15 to 18. The organization has a membership of over 200, and the attendance upon the approaching meeting promises to be large.

A novel programme has been prepared, and doubtless the drugists from all portions of the State will be there.

Among the thirty seven events on the programme are ten pin contests, egg races, quotation contests, foot races, hen races, potato races, barrel races, mule races, kicking contests, apple contests, "saw wood and say nothing" contests, button sewing contests, nail driving contests. In all these contests handsome prizes have been offered the winners.

Of course the Association has its business meeting, in which matters of weighty importance will be discussed, but after these solemn occasions comes the fun, and if the programme means anything these pill rollers and knights of the spatula will have a gay time at Old Crittenden.

Anniversary.

On the 7th day of May, 1897, Mr. E. H. Porter celebrated his 66th birthday. Early in the morning children, grandchildren and friends began to gather at his residence until a goodly number had assembled, and his home was made happy with the merry laughs of the children, while the older ones talked about the things of the past and the prospects of the future.

At 12 o'clock religious services were conducted by W. B. Crider, and then all repaired to the dining room where a table was well supplied with such things as suits the appetite of people at such times.

Mr. Porter is a kind husband, an affectionate father, and a friend to the poor. He commenced life a poor boy, but by perseverance and hard labor he has obtained a good living, and loves to enjoy it with his friends. While he has plenty, he still labors and manages to keep plenty. He is admired by his neighbors. He is a Christian and God has blessed him with sixty six years of life and we hope that he will continue to lengthen his days and that he may celebrate at least a score more birthday anniversaries.

Family Reunion.

At his pleasant country home a few miles west of town Mr. B. A. Enoch, one of the best citizens of the county, entertained his children, grandchildren and a score or more of friends last Wednesday. The occasion was that of a family reunion, a time when the unpleasant episodes of life are forgotten, or if remembered, they are softened and hallowed by the touch of time until they mellow the heart and make us akin to all we meet.

Sixty persons gathered at Mr. Enoch's, and while the grand children rolled under the shade trees, which in years gone by sheltered the children, the grandparents, parents and friends lived in the past, present and future: A table, such as Mrs. Enoch knows how to spread, was no inconsiderable feature of the happy occasion.

Before departing for their several homes, each family formed into a circle, presenting a beautiful picture. All hearts were made lighter, and lives brighter by this pleasant reunion.

A Friend.

When a merchant has a good, honest article to sell he likes critical customers, particular people, for whom only the best is good enough. That's the way we feel. THE BUCKSKIN BREECHES are so good, so strong at every point, that we like to sell them to people who appreciate a good pair of pants. We make these pants with the idea of pleasing the most particular buyers, and then we please everybody. We guarantee the fit and stitching.

SHADY GROVE.

The farmers are battling with the hard frosts and praying for rain. We see an occasional good field of wheat but the outlook generally is not good. Our farmers who raise tobacco are becoming convinced that quality is a more important factor than it formerly was, and if this idea is acted upon there is no good reason why the

LOLA.

Mrs. O'Hara is very sick. Mr. V. S. Champion was in town shopping last week. Rev. Kinneir preached for us last Sunday night. Miss Hattie Hardin, of Carrville, is a guest of the Misses Foster this week. Mesdames Morris and Styers have returned home after several days visit at Carrville. Mesdames Addie Davis and P. BELLS MINES.

Measles and whooping cough have run out of fuel. F. L. Black will mow a field of clover this week. All of our young people attended a singing at Graingertown Saturday night. They had a fine time. T. J. Black has a fine filly. She is just 24 years old. Burton, who was shot by "white caps," is getting well. The woman in the case, Mag Price, has moved, and the house has been torn down. No more trouble is expected. The Sunday School and Christian Endeavor is all the talk in this place—both are flourishing and are doing great good. We have bright prospects for peas, beans, cabbage and chickens. Mrs. Sallie Black has more than one hundred young Plymouth chicks. The fruit crop will be light. The peach tree leaves are rolled up, ready for shipment. The blackberry blooms are plentiful. The candidates have not made their appearance in our section yet. Better come over, boys. We are all still for free silver as well as free gold.

EMMAUS.

Much plowing and planting has been done for the past two or three weeks, but owing to cool weather vegetation of all kinds is progressing very slowly. Oats backward and unpromising. Wheat in very good condition, except some fields which seem to be in fested with chinch bugs. The Hodge Cave will probably be selected as the place for holding the Sunday school picnic which Emmaus church is preparing for. Marion Wring has purchased him a new surry, of Cochran & Baker, which he seems to be delighted with. Misses Delle Brown and sister of Salem were visiting H. Shreeve and family last week. Misses Bessie Fox and Viola Stubbeheld were the guests of W. L. Travis Saturday. Mr. George Parrish, of the Francis neighborhood, is farming some in the Claylick bottoms this year. Misses Clara and Blake Harpending and Dora Threlkeld, three popular young ladies of New Salem, honored our church with their presence the third Sunday. The boy preacher will be at Emmaus again the first Sunday and he requests every member to be present, if possible. Bud Butler has two hundred bushels of corn for sale, at 40 cents per bushel. Mr. Charlie Fox, who has been in Ohio for some time, will soon return to the land of peace and plenty.

Your Cough,

like a dog's bark, is a sign that there is something foreign around which shouldn't be there. You can quiet the noise, but the danger may be there just the same. SCOTT'S EMULSION of Cod-liver Oil is not a cough specific; it does not merely allay the symptoms but it does give such strength to the body that it is able to throw off the disease. You know the old proverb of "the ounce of prevention?" Don't neglect your cough. A book which will tell you more on the subject sent free on request. Your druggist keeps Scott's Emulsion of Cod-liver Oil. Put up in 50 cts. and \$1.00 sizes. SCOTT & BOWNE, New York.

Resolutions of Respect.

God in his infinite wisdom has broken the ranks of our society, calling to Him on the 21st of April, 1897, our beloved sister, Malinda Stone, wife of Rev. J. K. M. Stone. We miss her, and while looking at it from a human standpoint, we have sustained a great loss, since while in health she was faithful in her duties to her church and society, a loving mother to her children, a kind friend to her neighbors, by whom she will be held in loving remembrance. Yet while we realize this loss, we with sorrowing hearts bow to the will of Him who doeth all things well. "Safe in the arms of Jesus, Safe on His gentle breast, There by His love overshadowed, Sweetly my soul shall rest." Mrs. W. B. Vandell, Mrs. J. M. Freeman, Mrs. G. M. Crider, Committee.

Some for ten, some for twenty, and some for thirty years have suffered from piles and then have been quickly and permanently cured by using Dr. Witt's Witch Hazel Salve, the great remedy for piles and all form of skin diseases. At Haynes.

It always pays to get the best, and if you want to get the very best for your money you will find them at J. P. Pierce's.

The death of Mr. J. H. Hawkins takes another of the few remaining, who are able to tell us of people and things that were talked about in this section fifty and sixty years ago. A GOOD MAN WANTS A GOOD PLACE.

T. J. Vandell An Applicant for the Deputy United States Marshalship.

Mr. Thos. J. Vandell, the popular cashier of the Marion Bank, has applied for the deputy United States Marshalship of Kentucky, and the chances for his winning the prize seem to be very good. He is a personal friend of Senator Deboe, and besides the Senator should, and evidently does, feel under great obligations to the party in his home county. For was it not his home people who gratified his earlier ambition, and placed him on the road that ultimately lead to the great honors that have come to him? Deboe is not a man to forget these things, and remembering them, it is only reasonable to suppose that he will not hesitate to champion the cause of a home made for at least one real good place. There need be no great search to find a man to thus honor, especially when Thos. Vandell has signified his desire for the place. The Vandells are of the oldest families in the county, and they have been staunch Republicans almost since the organization of the party. Mr. J. A. Vandell, father of Thos. Vandell, represented Crittenden in the Legislature in 1868. W. B. Vandell, a brother of Thos's, served as chairman of the Republican county committee for several years, and proved to be a peerless organizer. Tom had served in honorable positions in the county, and has proved himself worthy of any trust. He is a man of splendid business qualifications, honest, conscientious and untiring in whatever work he puts his hand to. He has a wide acquaintance over Western Kentucky, consequently his popularity is not confined to his home county, and neither are his endorsements limited to the people of Crittenden county. The new Senator could not do a handsomer thing for his county than the making of Tom Vandell deputy marshal, and if the party were searched over we do not believe a better nor a more deserving man could be found.

THE NEW POSTMASTER.

Miss Vic Cameron Will be the Chief Deputy.

Mr. George M. Crider received his appointment as postmaster a few days ago, and promptly sent in his bond, and is expecting his commission sometime next week. He does not know just when he will take charge, probably not until the first of July. Miss Vic Cameron will be his chief deputy, and Mr. Crider's wife will also be an assistant. The office will be kept at the same stand. All the shelving will be moved out of the house and the entire room devoted to the post office business. Mr. Crider is also talking of putting in new and larger fixtures. The post office now pays, according to postmaster Hearin's figures, which includes commission on cancellations and money orders, and box rents, about \$1,000 per year, and \$250 a year is allowed for clerk hire.

Base Ball.

The Marion base ball club went to Princeton Saturday and played an interesting game of ball with the Princeton boys. Marion won by a score of 34 to 25. A large crowd witnessed the game. Our boys are delighted, as a matter of course, at the result of the game, and they were also delighted with the courteous treatment they received at the hands of the Princeton club.

The return game will be played at Marion Saturday, June 5, and the boys are anxious to have a big crowd witness the game.

Wholesale Poisoning at Cave-in-Rock.

Excursionists today from Cave-in-Rock, Ill., reported a wholesale poisoning in that town Saturday night. Columbus Frazer, a young merchant of Princeton, Ky., visited his old home and his friends gave him a reception which wound up in an elegant spread. Soon after the supper sixteen persons in the crowd were taken seriously ill, and one, whose name could not be ascertained, died yesterday, and two more are in a dying condition. All were poisoned. They ate spring chickens and since it has developed the chickens had been fed strychnine by a farmer from whom they had been purchased, for the purpose of killing hawks. The ending of a pleasant event has caused great excitement and widespread sorrow in that section.—Paducah News.

The Educational Association.

There will be a company leaving Marion for the Smithland Association Thursday June 3. We will drive through. I have arranged for a limited number to go for \$1.45 round trip, think I might arrange for others could I hear from you by Monday. If you have your own conveyance we should be glad for you to join us. Should you prefer you could start Friday morning and get there in good time. Miss Wheeler.

AMONG THE FARMERS.

J. E. Dean has a good milk cow for sale.

The cool, dry weather has stopped the ground of the young corn.

Henry Wilson brought his stock home from Uniontown last week.

Si Franklin, of Levas, was in town yesterday with a fine young saddle horse for sale.

Wellington Jones will have just one third as much tobacco on his farm this year as he had last.

Mr. T. W. Wolf thinks the wheat crop in the Salem valley will be short; that in the Pinckneyville neighborhood is more promising.

Mr. G. H. Shreever says in the View neighborhood there is a one hundred acre wheat field that does not look like it would be worth cutting.

John Shaffer has been selling some mighty fine strawberries. He raises them as large as peaches, and has a half dozen different varieties.

Mr. George Hughes, of Weston, advertises the Rose Eran, an Irish potato new in this section. He has been raising potatoes all his life and pronounces this the best variety he has found.

Mr. A. J. Bennett, of Tolu, was in town Tuesday. He is one of the extensive farmers of the Tolu section—the greatest corn growing neighborhood in the First Congressional district. Mr. Bennett has 300 acres of corn planted.

Recently a farmer friend of ours in musing over the dark side of the picture, which hangs continually before every ambitious man, dropped into a deep reverie and expressed the misery that hung over his soul as follows:

There's a chinchbug on the wheat, A cut-worm on the corn, There's interest on my note, A mortgage on my farm.

CASTORIA

For Infants and Children.

There is a stray mule at my house, one mile from Annora, on the Salem and Fredonia road. It was found in my field, down with saddle and bridle on, the saddle was turned so as to prevent its getting up until saddle was removed. It is a dark bay mare mule; with right eye out, supposed to be 15 years old. It came to my premises in the latter part of April 1897. The owner can have same by calling and getting same and putting for this notice, A. A. Davenport, P. O. Mexico, Ky.

Wool Carding

AT MARION, KY.

Having thoroughly overhauled and repaired my machinery, making it practically as good as new, I am ready to card wool. I had more than twenty years experience, and understanding the business in every detail, and having a first class machine, I can do better work than you can get anywhere else.

I guarantee all of my work to give entire satisfaction. Bring in your wool. Will pay freight to machine on all shipments of 100 pounds and over. Neighbors can easily club together and send that amount together at one shipment. Mark each bundle with the owners name, and write giving full directions as to the way you want it carded.
